

A new concept for personal holiday travel.

- Every trip must be an unforgettable, exceptional and unbeatable experience. So be sure to opt for flawless support from an experienced travel consultant.
- Once you have experienced our Travel Expert's personal monitoring and feeling for detail, there's no turning back.
- Every Travel Expert works at home, independently, on his or her client portfolio and is permanently available (including in the evening and at weekends) to ensure a friendly, efficient and thoughtful tailored service.
- You will rarely encounter the combined experience of our Travel Experts in a traditional travel agency. And you don't have to go without our service because of price, as you'll never pay more with us than elsewhere.
- Travel Experts are recognised by all tourism organisations and hold IATA and all other required licences.
- Every assignment is completed meticulously: a special tailored trip, a dream cruise, a last-minute city trip or a short tour, airline and train tickets, hotel room reservations, rented cars, nothing is impossible...
- They are friendly, efficient and concerned
- The BTS Travel Group provides continuous full professional logistic support for each travel consultant.
